Corrigendum

Original citation *JCI Insight.* 2023;8(14):e169855. <https://doi.org/10.1172/jci.insight.169855> Citation for this corrigendum: *JCI Insight.* 2023;8(16):e174463. <https://doi.org/10.1172/jci.insight.174463> The correct legend for Figure 2, E and F, is below: (E and F) IL-6 and TPO levels in the serum of PBS- and LCWE-injected mice (n = 8 to 12 mice/group) at 24 hours and 1 week after LCWE injection. The related text in the section Increased platelet count during LCWE-induced KD vasculitis has also been corrected. The correct sentence is below: Similarly, compared with PBS-injected control mice, LCWE-injected mice showed significantly increased levels of circulating levels of IL-6 and TPO at 1 week and 1 day after LCWE, respectively (Figure 2, E and F). The text in the related section Deletion of c-Mpl inhibits LCWE-induced cardiovascular inflammation has also been corrected. The correct sentence is below: We found that TPO, which stimulates thrombocytosis, was elevated in LCWE-injected mice (Figure 2F). The HTML and PDF versions have been updated online. The authors regret the errors.

Citation for this corrigendum: *JCI Insight*. 2023;8(16):e174463. <https://doi.org/10.1172/jci.insight.174463>

The correct legend for Figure 2, E and F, is below:

(E and F) IL-6 and TPO levels in the serum of PBS- and LCWE-injected mice ($n = 8$ to 12 mice/group) at 24 hours and 1 week after LCWE injection.

The related text in the section *Increased platelet count during LCWE-induced KD vasculitis* has also been corrected. The correct sentence is below:

Similarly, compared with PBS-injected control mice, LCWE-injected mice showed significantly increased levels of circulating levels of IL-6 and TPO at 1 week and 1 day after LCWE, respectively (Figure 2, E and F).

The text in the related section *Deletion of c-Mpl inhibits LCWE-induced cardiovascular inflammation* has also been corrected. The correct sentence is below:

We found that TPO, which stimulates thrombocytosis, was elevated in LCWE-injected mice (Figure 2F).
