

Supplemental Table 1. Correlations between the delta (pre - post) study outcomes with the delta biomarkers

	L-arginine/ADMA	L-Citrulline	L-arginine/Ornithine	FeNO
FEV1 (L)	-0.02	0.12	0.08	0.1
ACQ	-0.07	-0.08	-0.16	0.02
FeNO	0.13	0.19	0.25	-
Values represent the correlation coefficients. (All p > 0.05)				

Footnote: FEV1: Forced exhalation volume in one second.

ACQ: asthma control questionnaire.

FeNO: Fractional exhaled nitric oxide

ADMA: Asymetric di-methyl arginine.
